

FOR IMMEDIATE RELEASE

Offshore Group Client Company, EE Technologies, Expands in Anticipation of Growth

TUCSON, AZ, July 15, 2010 -- Reno, Nevada-based EE Technologies, Inc. (EET) has extended its contract for manufacturing support, or "shelter" services, in Mexico with The Offshore Group through 2015, and has announced that it will expand its Empalme, Sonora production facility size from its current 17,227 square feet to 38,628 square feet.

It is anticipated that this growth will generate an additional 50 to 100 jobs at The Offshore Group's flagship Bella Vista Industrial Park.

According to EET's president, Sonny Newman, "We are proactively expanding our facility and capacity at this time to meet the expanding needs of our customers. Our diversification efforts over the last few years have resulted in serving new industries including automotive, medical, and aviation while still serving our gaming, industrial, and education customers. We anticipate this expanded space and the related capital equipment investments will allow us to better serve our new and existing customers. The services provided by The Offshore Group will enable us to achieve our expansion schedule in a timely manner."

EE Technologies, Inc. (www.eetechinc.com) is a premier electronics manufacturing service (EMS) provider, and has been in business since 2000. It is a quality and reliable source of engineering, customer and product support, quality and process control and manufacturing services. Its capabilities include: SMT, screen printing, inspection, testing, and conformal coating, as well as through hole and mechanical assembly services. EET is an ISO/TS 16949:2009 certified facility with a highly skilled and effective team.

The Offshore Group is the largest provider of outsourced manufacturing support, or "shelter" services in Mexico. Currently 51 manufacturers are in production at The Offshore Groups three industrial parks in Sonora and the city of Saltillo, Coahuila. Through its Vangtel subsidiary The Offshore Group also offers services to companies occupying the call center, IT development and BPO markets.
